Medical Information

There are very few medical conditions that prevent people from taking part in our activities. However it is important for us to know if anyone has conditions that might need special consideration. Information will be treated in confidence.

I confirm that I have read the Terms & Conditions noted below or on the company website.

BOOKING FORM for use by ADULT PARTICIPANTS

If a participant is under 18, the parental consent section at the bottom of this page should be used instead.

Free-Ski accepts its responsibility to make its courses as safe as is reasonably practicable. However, adventurous activities are inherently hazardous and cannot be completely risk free, however hard we try.

Accidents can happen without any contributory negligence from Free-Ski or its staff. Free-Ski can accept no responsibility for loss or damage to personal property or for personal injury not arising as a result of its own act or default.

I understand and accept the above statements and accept that I have a responsibility to take careful note of instructions and to act in a way that will minimise the likelihood of injury. I am fit for the course and will inform the centre before the course of any special medical conditions that might affect my safety.

PARENTAL CONSENT SECTION (for under 18s)

Part I

If you are intending to be with Free-Ski throughout your son or daughter’s course, please complete this part of the form only. If not, please complete both parts.

Most lessons at Free-Ski include one or more adventurous activities. Free-Ski staff has, and fully accept, a duty of care to make those activities as safe as is reasonably practical. They are required to adhere to a comprehensive set of safety rules and there is a quality management system to monitor the fact that rules and procedures are adhered to.

However, adventurous activities are inherently hazardous and cannot be completely risk free however hard we try. Accidents can happen without any contributory negligence from the centre or its staff.

Moreover, the environment that Free-Ski operates in is such that we cannot “fence off” all hazardous areas. Your son or daughter must therefore help our staff to look after their safety by listening carefully to instructions, by doing what they are asked to do and by not being reckless by trying to do more than they have been briefed to do. Only give your consent if you are confident that they will behave responsibly in this way. Free-Ski can accept no responsibility for loss of or damage to personal property or for personal injury not arising as a result of its own action or default.

I understand and accept the above statements. My son or daughter is fit for the course and will inform the centre before the course of any special medical conditions that might affect my son’s or daughter’s safety.

Part II

This part of the form only needs to be completed if you are not intending to be present throughout your son’s or daughter’s course.

Does your son or daughter have any medical or dietary needs that we should be aware of?

I agree to my son or daughter receiving emergency medical treatment, including anaesthetic, as considered necessary by the medical authorities present and I give authority to members of staff of Free-Ski to consent to such treatment.

- ii) It is the responsibility of customers to inform Free-Ski of any medical conditions or medication which they are taking and that may affect the performance and or ability to participate.
- iii) Free-Ski reserves the right to request that a customer leave a lesson where it or its instructors consider that the customer's continued participation jeopardises the safety or enjoyment of either their or other customers.
- iv) Free-Ski reserves the right to request that a customer leave a lesson if it or one of its instructors suspects that they are under the influence of alcohol or drugs.
- v) It is the responsibility of customers to wear appropriate clothing for lessons. Free-Ski reserves the right to refuse to teach any customer who is not suitably dressed. The use of helmets is recommended. They are a mandatory requirement for all children and young persons under the age of 16. A child or young person below the age of 16 will not be allowed to participate in a lesson without a helmet.
- vi) In the interests of safety customers are required to comply with the decisions, instructions and directions of Free-Ski's instructors.
